The Electric Railway.

Contractor Maurice Talty has at present four gangs aggregating about men, employed on that portion of the new electric railway between Washington and Baltimore, lying between the Metropolitan Branch of the Baltimore & Ohio Railroad and the District of Columbia line. The men are at work on the Brentwood road and are engaged in grading and building brillges and culverts. The road begins in Washington at Fourteenth street and New Jersey avenue, runs out New Jelsey Avenue to Rhode Island Avenue and out Rhode Island Avenue to Brentwood road.

Contractor Talty stated that the material being furnished for the culverts and drain pipes was of the finest quality. He said that he would have the road completed as far as Lakeland by the 1st of next March and would then turn it over to the head contractors, E, D, Smith & Son, of Philadelphia, who have the contract for building the entire road between Washington and Baltimore.-

Here the speaker commented at length on the filmsy causes that have been advanced for the disaffection that prevails in the Democratic ranks, and enlogized in glowing terms the fitness of the Democratic candidates for their respective

positions. Referring to Mr. Hurst, he said: " particularly welcome him to Howard county, and say that I can guarantee to him that the people of this county will give the most careful consideration to every word he utters, and it will be for them, before the close of the meeting, to guarantee him that support which Howard county Democrats always accord to Carroll then eloquently alluded to Gorman the services of Mr. up with a review of bossism in Pennsylvania under Quay and Delamater. MR. JNO. E. HURST. The next speaker was Mr. John E

Hurst, who was hailed as the "next gov-

ernor of Maryland."

Mr. Hurst said: "I regard this campaign as all-important for the supremacy of the party in Maryland. I cannot be lieve that we can lose the state in 1895 and regain it in 1896, when the electoral vote of this state may decide the presi dential election. The legislature of this state will be called upon to elect a United States senator at its coming session. Do we want a Maryland senator to aid Mckinleyism? No-a thousand times no! We have a tariff which will give the government all required revenue so soon as it reaches its normal results and we should protest in the most positive terms against any interruption of it and give it time to demonstrate that it is in the interest of the people Yet, my Baal than trust in the cohorts which friend, Mr. Lowndes, says this is a state have taken many a walled city and slain campaign. No doubt he wants to keep thousands of the enemy under the pro- it so, but his claim is only to the ear, to tecting wgis of Jeffersonian guidance and entice Democrats in his net, but if he and his party get the power, they will use it for all it is worth, as the Republican party in Maryland is not the same as it is in other states or what it was when about its historic precincts as was there here la t. The Republican candidate for governor is easily interviewed and puts himself on record as anxious to better the administrative affairs of the state. I

SENATOR GORMAN INTRODUCED. Then came the star attraction of the day, the senior United States Senator

from Maryland, the Honorable Arthur Pue Gorman. The Senator's appearance upon the stand was the signal for a tumult of applause. It was several world wide. If when all others had minutes before the Senator could proceed. Indeed, the enthusiasm over his appearance on the platform itself, next to his speech, was one of the great fea- the wheels of industry and increased the tures of the day. Throughout Mr. Gorman's speech was aggressive, and he the people. His remarks were punctuated with generous applause, and though people had been standing in the heat for four hours they were found packed bout the stand until the last words of Mr.

Gorman were uttered which were as follows: "The attempt so persistently made to nake me an issue in this campaign only shows the power of the public press in making the people believe just the reverse of the truth by the constant reiteration of statements that are absolutely without foundation. I have a great interest in the success of the Democratic party in every state in the Union, and an especial interest in the success of the Democratic party in Maryland because I am one of them. But I have no other or greater interest than every member of the party who believes, as I do, that the welfare of the state and nation largely depends upon continued Democratic control. I am for my party and with my party and its nominees on all occasions, and at every election. because I believe my party best subserves the interests of the people. Its success at this election cannot increase my power or give me additional place and honor any more than the election two years ago. The good people of the state of Maryland have already given me all that I ever asked for; indeed, more than I ever expected. It is now twenty-six years since first I was a candidate for the legislature. I have been in many campaigns since. We have had some warm contests, and quite as active oppositions when I had a personal interest in the campaign, as we have now. The people of the state sustained me in every contest.
